Report of the School Board.

The school board respectfully submit the following report of Troy school district for the year ending March 1, 1887.

The same number of schools were in session as in previous years. The number of districts had been so changed from time to time under the old law that there were only four districts and the board could not make the number of schools less than formerly without bringing all to the village. which would have been impossible to do.

The only change that could have been made was to bring the two or three scholars from district number two, to the village, which change was contemplated. The larger number of the scholars in the district reside in Fitzwilliam, and arrangements were made with the school board of that town by which the school was kept in the district.

Arrangements were also made with the school board of Jaffrey, whereby the summer term in the East Hill district was kept in the Jaffrey school house, in order to accommodate scholars living in that town. They gave the use of the house and paid one third of the expense of the school.

A term was kept at the house of L. H. Merrifield, as a teacher was procured at less expense than arrangements could be made to bring the children to the village where they properly belong.

These children are just arriving at school age, when they should have the benefit of all the schooling possible, and we would call the attention of the citizens to the question as to the advisability of maintaining a school in that section. formerly district number five, and of the expense necessary to put the school house in a fit condition for a school. It would be to the advantage of the scholars to attend the village school provided transportation could be procured at a reasonable rate.

All the school houses need repairs.

Of the two hundred dollars appropriated for this purpose, one hundred dollars have been drawn and nearly expended, and the balance due will need be used before the commencement of the summer schools, but it is doubtful if the amount will be sufficient to put them into as good condition as they should be. There has been but a very small amount expended for repairs for a good many years and now it becomes a necessity.

The furniture in some is getting pretty well worn and broken and it will soon be necessary to replace with new. The plastering is getting cracked and falling off. Some of the rooms need to be thoroughly cleaned and painted. Out houses need very much to be repaired; most of them are in a disgraceful condition and totally unfit to be used. One or two houses need to be shingled and clapboarded.

If we are to maintain school houses it is the best policy to keep them in good condition.

The repairs made were shingling the house on West Hill and relaying the chimney; relaying part of the cellar wall at the north primary, and minor repairs in all the houses, including the setting of over fifty lights of window glass, which in most instances were unnecessarily broken, and we call the attention of parents and pupils to the regulations adopted upon the subject.

All the schools have been as successful as in the past with one exception, and very good improvement was made generally.

The exception was the summer term in the East Hill district. It was the first experience of the teacher, and lacking most of the qualities necessary to make a good teacher, she failed to get the scholars interested in their work; one by one the number diminished and consequently no benefit was derived.

The number of scholars attending two weeks or more, one hundred and forty-eight: boys, sixty-six: girls, eighty-two. Amount of money to each scholar, $8.70.

The total number of weeks school was 159. Average number of weeks to each school 22 5-7. Number of visits by par-

ents, citizens and others, 205. Number of visits by committee, 33.

Rules and regulations of the school district of Troy, N. H., adopted by the school board April 1, 1886:

1. The schools shall be opened punctually at 9 a. m., and 1 p. m. and closed at 12 m. and 4 p. m. Children in the primer classes may be dismissed after an hour and a half attendance.

2. The roll shall be called immediately after the commencement of each session, and a portion of the Scriptures read each morning after roll call.

3. Obedience to the teacher is required, faithful attention to studies, and all whispering without permission forbidden.

4. Pupils will not be allowed to occupy the school room except during session hours without permission of the teacher.

5. If any pupil shall injure or deface, by cutting or other means either a seat or desk, such pupil, his or her parents or guardians, shall pay to the district a sum sufficient to procure a new seat or desk as good as the injured one when new, and shall set it up in its place in the school room.

6. If any pupil shall break any glass, mark, scratch, whittle, write upon or in any manner deface or injure any part of school buildings or appurtenances, his or her parents or guardians shall pay such damages as shall be satisfactory to the school board.

7. It shall be the duty of the teacher to make a note of any damage done by the pupils and report the same to the school board.

8. Scholars shall not engage in boisterous conduct, and shall not use vulgar, obscene or profane language.

9. Teachers shall govern and instruct their pupils without partiality; shall inculcate the principles of morality, a sacred regard for justice, truth, love of country, punctuality, benevolence, industry, sobriety, chastity, cleanliness, neatness and love of order.

10. The laws of the State make scholars responsible to their teachers in going to and from school when not under the care of parents or guardian.

11. Teachers are required to observe and enforce these regulations, and shall read them to their pupils at the commencement of every term.
